

## Project-sharing

1. **Cross validation** : Data cleaning/ Data features engineering/dummy coding
2. **Decision tree**: random split data/Confusion Matrix/ Precision, Recall, Accuracy
3. **Fake News Detection** : feature extraction from words/ xgboost/ LGBM Classifier/ Gradient Boosting Classifier
4. Automated gaming : game project
5. Gaming : game project
6. 機器學習 HW1 : SmoteENN, feature selection
7. 機器學習 HW2: K means/ Fuzzy c means
8. 機器學習 HW3:ANFIS
